Full-Registration Medical Officer:

January 2017 – April 2020

Hospital Sultanah Aminah

Johor Bahru, Malaysia

1) General Medicine

I was posted to the Department of General Medicine post-registration as a Medical Officer. Responsibilities include daily care of 40-50 ward patients, assistance at the Outpatient Specialist Clinics, receiving referrals for admissions from Accident and Emergency, 5-a-month oncalls involving active and passive ward work. I too received exposure during various 4-months subspecialty rotations. Hands-on experience through high volume repetitions were gained on core procedures listed below.

Credentialed core procedures:

- Cardiopulmonary Resuscitations
- Intubation
- Pleural Tapping
- Chest Tube Insertion
- Peritoneal Tapping
- Peritoneal Dialysis (Stab PD)
- Ultrasound Guided Insertion of Femoral Central Venous Line
- Ultrasound Guided Insertion of Internal Jugular Central Venous Line
- Bone Marrow Aspiration and Trephine Biopsy
- Lumbar Puncture

2) Passed MRCP(UK) Part 1: January 2017

3) Passed MRCP(UK) Part 2: November 2017

4) Nephrology Sub-rotation: February 2018 – May 2018

Responsibilities include daily care of all nephrology patients in General Medicine department and other periphery departments, assistance at the Hemodialysis Unit, Lupus Nephritis clinic, and Nephrology Specialist Clinic.

3) Hematology Sub-rotation: June 2018 – September 2018

Responsibilities include daily care of all hematology patients in General Medicine department and other periphery departments, assistance at the Hematology Specialist Clinic twice a week, Bone Marrow Transplant schedule, and running a thrice a week Bone Marrow Trephine and Aspiration service for 2 months with an average of 5 cases per day. Other common procedures during this rotation include Lumbar Puncture and administering intrathecal medications.

4) Passed MRCP(UK) PACES: April 2019

5) Neurology Sub-rotation: Jan 2020 – April 2020

Responsibilities include daily care of all neurology patients in General Medicine department and other periphery departments, running Neurology Specialist Clinic, assistance in the monthly Botox clinic, assistance in Primary Thrombolysis for Acute Stroke Service. Experience was also gained in nerve conduction study, electromyography and electroencephalogram.

Post-Membership - Acting Clinical Specialist:

May 2020 – November 2020

Hospital Sultanah Aminah

Johor Bahru, Malaysia.

Responsibilities included daily care of 30-50 in-patients, running the Outpatient Specialist Medical Clinic, on duty at COVID19 Hospital (Kluang HEBHK and Hospital Permai) as clinical specialist, and being an integral part of Johor COVID-19 Infectious Disease Team. Experience was gained in doing Echocardiography and point of care bedside Ultrasounds.

Acting Clinical Specialist, Management Committee Member, and Medical Department's Representative Physician of Hospital Permai Johor Bahru Low Risk Covid19 Centre:

November 2020 – April 2021

Hospital Permai Low Risk Covid19 Centre (HPJB LRCC)

Johor Bahru, Malaysia

Responsibilities included being in-charge of overseeing the clinical operation of HPJB LRCC, including daily ward rounds, consultations with private/government referrers, networking with other Covid19 centers and government agencies such as the State Health Department and District Health Office in Covid19 clinical care, taking part in core-decision making with regards to clinical/management workflows, handling human resource aspect of around 40 Medical Officers and 4 other Clinical Specialists.

Clinical Specialist, Physician In-charge for Departmental Manpower Administrations:

May 2021 – present

Hospital Sultanah Aminah

Johor Bahru, Malaysia.

Responsibilities included daily care of 30-50 in-patients (COVID19 or general medical wards), running the Outpatient Specialist Medical Clinic, biweekly visiting of patients with general medical issues in the state psychiatric institute Hospital Permai.

Also incharge of manpower administrative works of the Medical Department, handling the human resource aspect of around 120 Medical Officers including arranging weekly departmental rosters and monthly oncall rosters, arranging the leave requests of Medical

Officers and fellow Physicians, planning the manpower distribution among wards and clinics for smooth operation of the department.

***Completed NSR Gazettement Period 17 May 2021 – 16 November 2021**

Hospital Sultanah Aminah

Johor Bahru, Malaysia.

Joined IJN as Clinical Fellow in Cardiology - 1 September 2022
